

Sofía Brugo Spinetto

Frontend Developer | Bilingual (EN/ES) | React & JavaScript Enthusiast

Argentina (Open to Remote) | LinkedIn - GitHub - Portfolio

Professional Summary

Passionate and detail-oriented Frontend Developer with 3+ years of experience building responsive and user-centric web interfaces. Skilled in JavaScript (ES6+), React, and modern HTML/CSS, with strong understanding of frontend architecture and collaboration in Agile/Scrum teams. Experienced in both greenfield and maintenance projects. Fast learner, strong communicator, and eager to grow in full-stack development (Node.js).

Technical Skills

Frontend: JavaScript (ES6+), React, Angular, HTML5, CSS3, Responsive Design, SCSS/SASS

State Management: React Hook Form, Redux (learning)

Tools & Workflow: Git, GitHub, Figma, Agile/Scrum, REST API integration

Backend Basics: Node.js, NestJS (learning), MySQL

Other: Bilingual English-Spanish, Communication & Team Collaboration

Key Projects

Full-Stack Investment Dashboard - Personal Project

React, Node.js (NestJS), MySQL

- Built a modular financial app for simulating compound interest and investment goals
- Applied REST API design, form validation, and responsive design
- Wrote services and controllers for backend financial logic

Government Portal Layout - Freelance Contract (Argentina)

HTML, CSS, JS

- Delivered responsive UI layouts based on Figma designs
- Ensured cross-browser compatibility and accessibility

Work Experience

Freelance Frontend Developer | Remote | Jan 2022 - Present

- Delivered responsive interfaces using React and vanilla JS
- Translated client requirements into features and handled REST APIs

Frontend Intern - Public Sector Project | Buenos Aires, Argentina | 2021

- Collaborated on UI/UX updates to a government portal
- Implemented pixel-perfect layouts and practiced Git-based version control

Education & Learning

Self-Taught Web Developer (Full Stack Focus)

- Learning backend with Node.js & NestJS
- Built React apps, APIs, and forms with validation
- Studied Git, SCRUM, and component architecture

Additional Highlights

- Strong communicator and team player
- Open to feedback and learning modern tools
- Bilingual (English-Spanish), great fit for international teams

Availability

- Open to contract roles (remote or hybrid)
- Timezone: Argentina (GMT-3) - Flexible for US-based teams
- Hourly Rate Expectation: Within \$25-\$35/hr range
- * Happy to provide code samples or GitHub repos upon request *
